ACADEMIC YEAR 1991-1992

SALTUS GRAMMAR SCHOOL YEARBOOK

THE TRUSTEES OF SALTUS GRAMMAR SCHOOL 218 YEARS OF SERVICE!

Mr. N.D. Anfossi Mr. H.C.D. Cox Mr. F.J. Gosling Mr. G. Titterton

Mr. D. Tolaram Mr. E.S.D. Ratteray Dr. D.E. Campbell

Mr. J. Amos Mr. D.C. Selley Mr. J. Burland

Mr. L.E. Simmons Mr. C. Pearman Mr. N.B. Dill

THE HEADMASTER- MR. J.K. McPHEE

FROM THE HEADMASTER

n 1991, selected ships in the British navy went to sea with women crew aboard for the first time and when the Dartmouth training squadron docked at H.M.S. Malabar last February, I had the pleasure of speaking to the Captain of Her Majesty's Ship, Sirius, one of the frigates with a mixed crew. When I asked him how he found 'co-education' in such a traditional service he replied that it had immeasurably enhanced the environment on board ship and was 'utterly natural'. So it has been with Saltus.

Co-education has been discussed as a possibility at Saltus for many years now, and indeed the Trustee minutes of over twenty years ago quote the late Sir John Cox as commenting on its desirability. Since then, many traditional boys' schools have made the move and rightly so: life must be lived by going forward, no matter how nostalgic we may all feel from time to time for things past. Since our decision was announced, we have had a gratifying increase in applications from prospective students of both sexes and indeed now have our first applications for the year 2000. I congratulate all the young men and women, boys and girls currently in our school, for the admirable way in which they have integrated into the new environment.

Our upgrading of the physical plant continues unabated. The new building at Cavendish opened on schedule for the start of last academic year with improvements to the older buildings to follow. On the main campus, the major work necessary to turn 'Woodlands' into a 'Music, Art and Craft Design Technology Centre' for use by Junior and Senior Departments alike is progressing well. The decision has also been taken to open a third steam throughout the Junior Department next September, thus fulfilling our aim at that level of reducing student numbers in individual classes. In addition, two new science labs will be added at the Senior level, bringing our total of laboratories to five plus a science lecture theatre. This will enable us to start a new G.C.S.E. course in September, Physics Technology, which involves the practical application of Physics.

If our contractors remain on schedule, the start of next academic year should see the completion of all the major work necessary to stremline the school for the benefit of present and future students alike. This is therefore an opportune moment to thank parents, staff and students for their tolerance and understanding during this period of major change in the history of the school.

2B WENT **ROMAN**

Gladiators by Michael Higginbottom

We came...

The Circus Maximus.

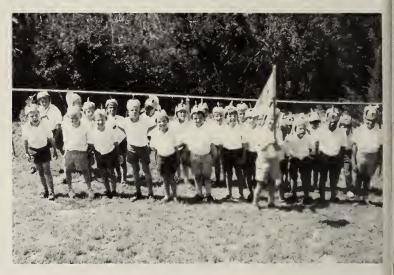

Ben and Neil are proud craftsmen.

Spartacus by Alexander Melvin.

I was a slave a long time ago and I was captured. The Romans made me work for them. So I had to and they were whipping me and telling me to work faster then the owner of the gladiator school came to pick up some slaves from the rocks and got me to go to train and exercise and get strong and fit. Some wealthy people came from Rome and asked for two pairs of gladiators to fight to the death and the lady said kill him but he did not kill him because he was his friend.

We saw...

Hannibal's merry men.

We always do our best.

Hannibal by Simon Haworth.

Hannibal was a good general he conquered many cities he wanted to conquer the Romans. He got a whole army they crossed the Alps half of the army died and half of the army got through. The Romans were surprised they cut off their supply lines and the Romans won.

Ben Hur by Brady Dearden.

Ben Hur is talking to Jupiter. One of the gods. Look out Ben Hur he has daggers on his chariot. Here comes the emperor... we're off. The sun is hot my golden dolfin has turned over. Messala almost cut my wheels off. We whipped each other. There goes Messalas chariot. Ben Hur wins the chariot race. I get the bag of gold and laurel leaves.

We conquered.

Show and tell is fun. A visit to the fire station.

Poster Competition Winners, Christopher, Sam and Robert.

But we're nice guys...really!

When I grow up I want to be...

2K + H₂O = WATER AND ME

We couldn't live without it so ... o ... o

We decided to go looking for it.

We found a rig. We checked it over.

... seemed sturdy enough

... think it can do the job?

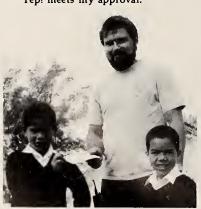

Yep! meets my approval.

Now we must find the right spot to dig!

Somehow the water doesn't look too clean.

Andrew Cottingham

Mission accomplished!

Reverse Osmosis

The reverse osmosis plant is where they separate salt from the water so they can use he water. They use special material to do his. They bring the water from a well hrough pipes. The water goes in big tanks. Then they pass the salted water to clean it. Once the water is cleaned, the very salted half goes through the pipes that lead down back into the sea. The other half is taken to a tank where it can be used for washing and cleaning.

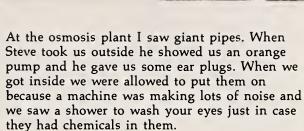

Ricardo Brums

Yesterday we went to the osmosis plant and we got ear plugs because the noise was oud. The machines took the salt out of sea water. It passed through the thick cylinder nembranes. If we get chemicals in our eyes, we could wash them out.

Spencer Wood

Charles Doyle

We went to the U.S. Naval base. We went there because we were going to the reverse osmosis plant. They showed us how they took salt water and made it into fresh water. There was a big pipe and a membrane. When they put the machines on, we had to put our ear plugs on. He told us about the orange pump and much more.

SALTUS CAVENDISH FOOTBALL-report by Trevor Boyce

Saturday morning football was a great success this year despite the complaints from the Dads at having to be there before 8:30 a.m. As usual the year started off with about 90 boys all dead keen to play. The sandpit claimed fewer 'ones' this year than I can ever recall and this was directly a result of the fantastic enthusiasm of all the 'ones' fathers and the tireless efforts of Martin Law in coordinating things. The twos and threes reached a new plateau in terms of skills and the interschool results were outstanding with many of the boys having an opportunity to experience interschool competition for

the first time. The senior team capped off a remarkable season with a very fine 4-2 victory over a P.H.C. team which included several fourth year boys. All the boys owe a debt of thanks to Mr. David Connolly and Mr. David Doyle for their untiring efforts with the team. Many other fathers helped also and it is only hoped their enthusiasm continues into the junior school.

During the year the boys had very convincing home and away wins over Port Royal. They had a good win over M.S.A. and the threes even managed a draw against a team from the Junior School. The ones managed

a draw against P.H.C. and had easy wins over both M.S.A. and Port Royal. With probably our best year of ones and twos for a long time it certainly bodes well for 1992/3 season.

Finally I would like to congratulate the boys themselves, particularly the threes, who have given their very best and played their hearts out all season.

When the boys are as enthusiastic as they were this year it certainly makes it worthwhile for those Dads who turn up each and every weekend.

-helping hands with the all-important ribbons.

-and the parents joined in with enthusiasm.

Mrs. Sampson returned to present Red Team with the Paul Simmons Cup.

WHAT ELSE DO WE DO?

PORTRAIT GALLERY

BERMUDA'S SCHOOL SECRETARY OF THE YEAR 1992

The island's school secretaries, who have formed their own organization, honoured their peers at a luncheon held at Marriot's Castle Harbour Hotel on Thursday, 23rd April 1992. The award for Secretary Of The Year was given to the Preparatory School Secretary, Mrs. Joan Paradine, who has worked here for twelve years. Mrs. Carol Smith, one of the organizers of the event, explained that the principals were asked to submit letters stating why they thought their secretary was worthy of such an award. A short-list was drawn up by a committee of school secretaries and the final selection was made by independent administrators in the Ministry of Education.

PIECES OF EIGHT! PIRATE TALES BY J4C

The Anna Maria Killer Bay, Skull Island

April 16th, 1989

Dear Mr. & Mrs. Outerbridge,

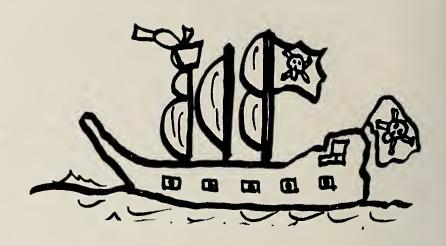

My pirates and I have kidnapped your son Bayard. We are keeping him in a pit of alligators at night. He cleans the toilets, the dishes and the floor of the ship in the daytime. Are you upset? These are the things that you must do if you want to see Bayard alive again. We demand you give us \$889,000,000. 90 cents. Go alone to Coral Beach with the money at midnight. Leave the money under a coconut tree. When you have done that leave the beach and in the morning you will see your son again.

Alexander Lines.

My story begins many years ago. I was sailing to Africa with a cargo of golden nuggets. After a few nights I noticed a ship sailing close by. At dawn a bunch of pirates headed off with my crew, my officers, me and the cargo of golden nuggets. The next thing anyone knew was that we were on Pirate Island. There were three captains, but the head captain was Captain Hook. Captain Hook almost killed my best officer. Just in time another pirate ship came by and they had a war. While the two pirates gangs were fighting we safely escaped by using the pirates rowboat.

My story begins many years ago. I was sailing to Africa with a powerful cargo of wine, fish, and guns. After three days I noticed a ship sailing close by. During the dark night while my strong crew was asleep, we were attacked very suddenly. It was a very hard fight. I didn't even have a sword all I had were some big guns. Soon the pirates captured us and we were taken prisoner. The pirates tied us up. I was very afraid that I was going to be killed. Their chief was standing ready to kill us. He was fat and had a big black patch over his eye. While I was in prison there were two officers out by the gate. I escaped using a big tough chainsaw to cut the big and heavy bars. When I got out I felt happy. And then I said, "I'm free!"

Tallent Clark.

The Dead Beat, Skull Rock, Dead Man.

December 2nd, 1821

Dear Mr. & Mrs. Jones,

My pirates and I have kidnapped your son Jason. We have kept him in a cave full of sharks. He has to wash his face in blood. Are you upset? Here are the thing that you must do if you want to see Jason alive again. We demand you to give us \$60,000,000 .81 cents and leave it at the Banana Beach Hotel.

Yours enemy, One Eyed Will. (Stefan Metschnabel)

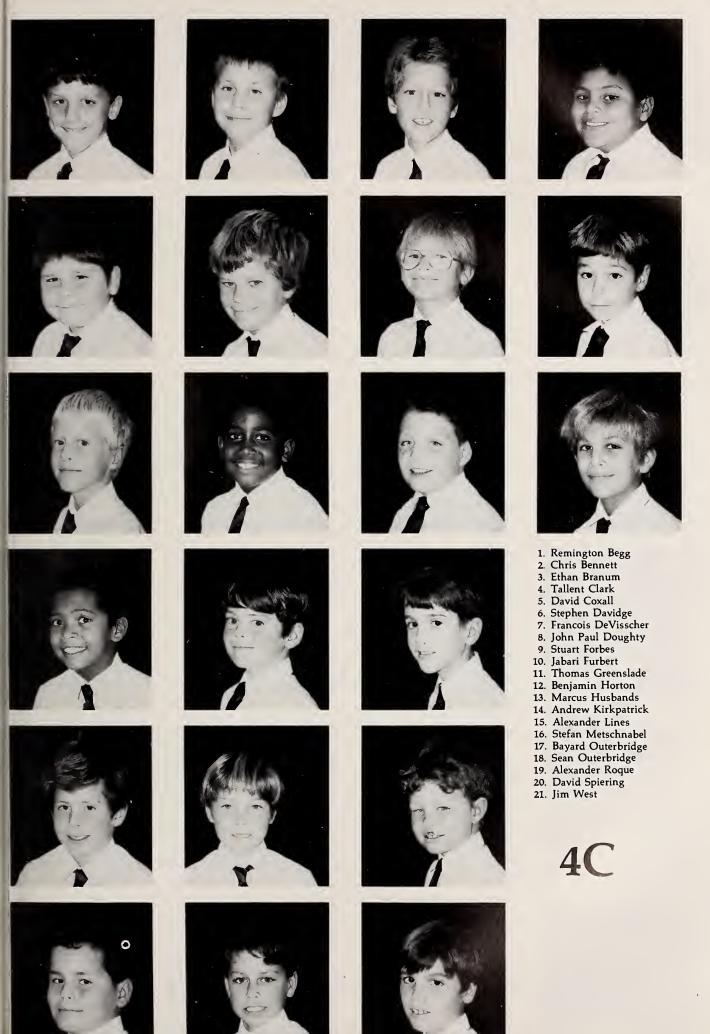

My story begins many years ago as I was sailing to India with a cargo of 800 tons of gold. After four days I noticed a ship sailing close by. At midnight when all my crew were asleep I heard a bump. I got all my men and ran upstairs I saw Crow Hook and his gang. I charged into battle. We killed 30 men but we lost. My men were tied up and put in the gun room. My officer and I were taken hostage. They stole the gold, and put us in the cabin on their ship. They sailed to Crow Island and put me in a dungeon. Suddenly water started to come in and me and my officer were up to our hands and knees in chains. We struggled. Now we were in 12 inches of water. Then I knew what to do. I got a knife and cut the chains. It was too late, my officer was drowned. I got up as quickly as I could, but the guard saw me. I quickly threw my knife at him. He lay dead. I slipped my hand through the bars and turned the key in the lock. I ran as fast as I could. I hid in some caves. When I was ther I made a row boat. I rowed to my ship, untied my crew and sailed back to England.

chose a big blue and white box. I decided hat it would be just the right place so I told ny mate to come in. We got some grass and hings to build our nest. Next my mate laid he eggs.

William Thompson.

When we were back in the dark cozy nest my vife said, "I think I'm going to be brooding oon." "What! I can't believe it! My first amily! When? How soon?"

Teddy Terceira

was weaving a neat and tidy nest. Around nd around I went. Finally I finished the nest fter going around one hundred times. I laid ny first egg that night, and the night after hat I laid another egg. The next afternoon I aid my third egg. I was a parent for the first

Travis Tucker.

was very hot in the egg. Then I cracked the gg, and I was on Earth. It was spooky and cary, for I had never been outside before.

Alexander Kirkland.

Father Bluebird starts a conversation, but it doesn't last long because Mother Bluebird interrupts and tells father to get some worms before the chicks starve to death.

Mark Robinson.

Back and forth, back and forth I went, getting food for my hungry little chicks, waiting for the day they could fly, hoping it would be very soon.

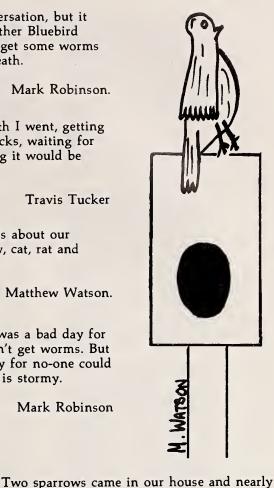

Travis Tucker

One night our mother told us about our enemies the starling, sparrow, cat, rat and pesticides!

Matthew Watson.

The weather was stormy. It was a bad day for bluebirds because you couldn't get worms. But in one way it was a good day for no-one could put down pesticides when it is stormy.

Mark Robinson

I was the first one to pop my little head out of the egg, and they cuddled me into their feathers. They felt warm and cozy. After that another egg hatched, and they cuddled my new brother too. I became angry.

Sean Dunkley

When I first hatched I didn't like what I saw, I was cold and frightened. But I did like my parents. I was hungry, too, and my mommy got a nice fat juicy worm. It was delicious!

Chris Baron

At first I was an ugly little thing, but in a few days I started to grow my first feathers.

pecked our children to death! "Now look here," I said, "We came here first, and it's not right for you to ..." The male sparrow replied, "Too bad, buddy, because this house is ours! And you'd better get out of here or else I'll give you a good peck!" I stayed where I was. I knew without a home we would surely get attacked by a cat or something.

Ben Winfield.

4L INSPIRED BY A **VISIT FROM TOMMY OUTERBRIDGE**

My dad showed me how to fly. It looked like fun to me, so I jumped, flapping my wings as hard as I could, but I fell straight to the ground like a rock someone had dropped out of the sky. I was now in some grass that looked to me like a giant jungle. I started pushing my way through the grass.

Steven Panchaud.

In the distance I saw something brown in the grass. It was a cat waiting to spring out to eat a helpless little bird. I was lucky he didn't see me or I would have been his dinner.

Derrick Emery.

Alastair Long.

45

I love my sister, her name's Melissa, Every day when I come home, I kiss her. I love my mother, she tucks me in at night

Especially so I won't get a fright. I love my father, he plays with me So that I can be the best that I can be. I love my brother, although at times He is a real bother.

Dana Martin

Homework and Work and School

Homework, homework is such fun, But only when we have none, Maths, English and Art, Science, Geography and History I did very well in them (I got W for wonderful-I think!!)

Games, P.E. and Drama too,
I never get to play because,
My gym bag is so far away.
Now that my poem is almost done
I'm going to sulk and suck my thumb.

Mark Goodwin

School
School is really fun
Lots and lots of lessons
Music, Science, Maths
And stacks of History questions.

Games is my favorite lesson, With lots of things to do. Soccer, cricket, basketball And lots more fun stuff too.

Computers are really bud, With high technology And of course in science We learn lots of biology.

Ryan Marshall

Meals

To start, I like cheese
But to get it, I must go down
On my hands and knees.
I like soda
but not Coca Cola.
I like Slice
But not more than thrice.
I love ham
But lamb!
No way,
Jose!

I like french fries, But not pumpkin pies, For dessert I like ice cream! And for that I scream! If you have strawberry Skip the blueberry. Goodness-if I have any more My stomach will be at war.

Alexander Soares.

A Poem of A Green Turtle

Green turtle, green turtle, Drifting through the sea, How wonderful your colors are, Like the greenery of a tree.

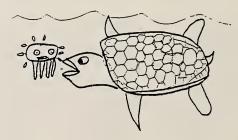

I like to watch the turtle of color, Named by green, They seem to be so eager, They seem to be so keen.

It's sad to know they're dying, It's sad to know they're rare, If humans know what's happening, They would take a bit more care.

For some, the turtle is a joke, For me it's just not so, I like the greeny turtle I like to watch it grow.

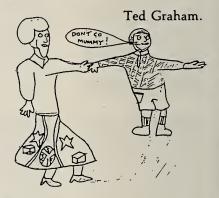

So please, when next sailing the sea,
Think about the turtle
Please watch - but let it be.

Murray Gregorson

The Unimportant Calico Clam

One day a big Calico Clam was on the shore of a small public beach. He was saying to himself how useless and unimportant he was as usual. When all of a sudden a man named Joe who worked for the Aquarium scooped the Calico Clam up with a net. Joe took the Calico Clam out of the net, put it in a box and drove for about fifteen minutes. Then he stopped at the Aguarium and went inside. After about ten minutes he came out, picked up the box and walked to a small beach where he gently laid the clam. The Calico Clam felt a little more important and at least he had the turtles to talk to. He was just becoming a little bored when he was unexpectedly moved to 'The Touch Pool.' The little children were able to pick him up and they had lots of fun with him. He felt very special to the kids and he knew this was the most important thing that a Calico Clam could do. He had lots of fun there and lived happily ever after.

Lost In Town

George Washington, George Washington,
Or was it George Duprie,
Took great care of his mother
'Tho he was only three.

He said to his mother, 'Mother' said he, "You must never go down, To the end of the town

To the end of the town Without consulting me!"

One night George Washington went t bed, Woke in the morn screaming off his

Woke in the morn, screaming off his head,

"Oh, mother where are you bound? Ah, she's probably down the end of town."

That night Mrs. Washington wasn't around
I don't think she was ever found.

Dear Half Moon,

How are you? I hope you are having fun Half Moon. How is it being a whale? I hope people will stop hunting you. I'd be really really sad if you were dead. How is the plankton? How does migrating feel? How are you feeling today? I hope you are happy because I am happy and if you're sad, I am sad also

Your friend, David Roth

Dear Half Moon,

I have no idea what you look like. They say you are the best breacher. How much food do you eat in a day? Does plankton taste good? How high can you jump? Have you ever had a mate? Is it fun in the ocean? How big is your fluke? Have you ever been to Bermuda? Hopefully my questions will soon be answered.

Your friend, Christopher Brough.

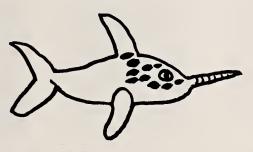

Whales by Andrew Shaw

In the mystic sea,
Whales are swishing here
and there,
As moonlight flashes
On the shiny surface
In the shiny ocean sea
On a summer day.

The Whale Unit by Justin Kempe

For my whale unit I studied the Narwhal. The Narwhal is 15 feet or 5 meters long. The Narwhal has a long toothlike horn on the end of its nose. It is a toothed whale not a baleen whale. When whales jump out of the water it is called breaching. We made a folder and drew a whale on the front. In the folder we put whale crosswords and things. On one side of the classroom there was a table with books that we used to find out things. Our whale was the smallest whale of all the groups. Many thousands of years ago whales used to live on land and had hair on

Dear Half Moon,

My name is James. Is it fun being a whale? How old are you? Have you met a whale called Sireus, because I own him. He is a humpback whale too. We send money to save you. What is your migration route? Do you have baleen like other whales? Well it's time to say goodbye.

Your friend, James Peniston

P.S. Don't get beached

Dear Half Moon,

How are you? We are helping you by raising money so that you will not get sick or die. I hope you are alright. I have seen your picture hanging in the library. When they adopted you, was your fluke small? Were you big or small? Did you migrate with your friends? Did you eat lots of plankton then? You are a beautiful humpback whale. Are you mystic? Mrs. Hall said you might be. I hope you are doing okay. I wish I could see you breaching today.

Your friend, Chrisanthi Bartley

J5H AND THE WHALES

One dark gloomy Sunday I was watching my favorite T.V. show when suddenly the television went blank and a message came across the screen, "Due to the weather the cable company has had a black out."

Knock, Knock. There was someone at the door. I went to the door and opened it. It was Nick. I had invited him over to help clear my fishtank. We went into my room and started clearing the fish tank. "Wow! I really like those new fish of yours. I wish I had one!" said Nick.

I thought to myself that maybe I should give him one but they were very expensive. How could I give one away? "Oh, I thought it doesn't matter, I'll let him have one." "Would you like one?" I asked. "Oh yes!" said Nick. We finished clearing the tank and he went home with one of my fish. I was very pleased to have made my friend happy.

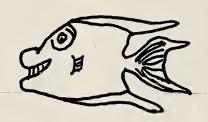

J6 SAINTS AND SINNERS

One Saturday morning I decided to give my mum breakfast in bed. I gave her french toast and cereal. I felt really good when she said "That was wonderful!" I was so pleased that I made her two cups of tea that same afternoon.

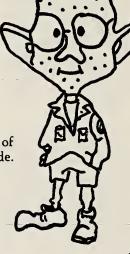

One of the kindest things I ever did was when a little new born bird fell out of its nest and I caught it. Its body was shivering like a person at the North Pole. After I caught it I climbed up the cliff face. As I was climbing I knew that if I slipped I would hurt myself. It was cold. When I reached the top I gently put it back in its nest. After I put him back, its mother arrived. My heart started beating. To my surprise the mother bird landed on my hand and rubbed its head on my fingers as a way of saying thank you. After that I climbed down and went to class.

One day my dad was talking to a man named Frank and there was this very large chocolate box of Milk Tray with the most delicious chocolates inside. I checked very carefully to see if anyone was coming. There wasn't so I walked over into my room and got my desk chair and I walked to the cupboard. It was a high cupboard that's why I needed the chair. I started taking all of the chocolates. I thought that they were so good. As I had them in my hand they started slipping. I was so worried, my face was going red and then it happened . . . They fell!

They fell all over the floor in my Mom's bags, in her shoes and all in the hallway. I was terrified! There were hundreds of them. When I got down I ate most of them quickly. Then my mom came home and I had some explaining to do. Looking back on the incident I feel very sorry about what happened. I learned a valuable lesson and I will never steal again.

One day my younger brother was counting his baseball cards. About an hour later I overheard him talking to mum. He said, "I have five hundred cards." Then he said sadly, "But I have no Nolan Ryan cards."

I said to myself, "I have four Nolan Ryan's!" Wher he wasn't looking I slipped a Nolan Ryan card into his pack. He was so happy, he wouldn't stop talking about the card. That act of kindness made my heart glow.

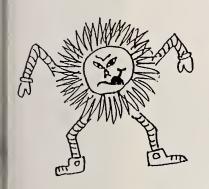

ll never forget the day I ran down the prridor, round the corner, and bashed into y form teacher who had a hot cup of offee in her hand! The collision had so uch impact that her coffee spilled all over er silk dress and on to the test sheets she as holding. She didn't say a word but just abbed my ear and marched me off to the rincipal's office. At the door she said, You'd better have a good explanation for is!" Mr. Tuzo was marking books. My acher explained what had happened, then I ut in my 2 cents worth! "I had to bring a essage to you, Mr. Tuzo, and my Math acher told me to sprint to the office I did actly what she said so ..." The Principal ould do nothing but smile. "You'd better back to your studies now," he said. As I alked back to the classroom, I mumbled to yself, "All that grief for nothing."

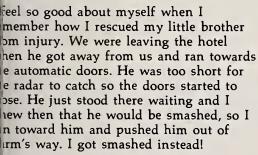

Once, I did something so thoughtful for my brother that I surprised even myself! It happened when we were fishing at my Grandma's dock. I had caught more fish then he had because hardly any fish were biting at his line! I showed him how to put on his bait properly and while he was doing that I slipped some of my fish into his bucket. When we'd finished fishing we told our parents how many fish we'd caught. When my brother discovered that he had caught more than I did he smiled and I smiled too, all afternoon, because I felt so proud of myself for making my brother happy.

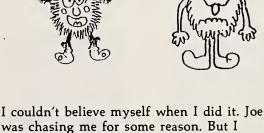

My whole body glows and I feel happy when I remember my most unselfish act. It was Saturday and I was doing my morning chores, working twice as fast as usual so that I might earn some extra money. Get the Windex! Pass the Pledge please! Weed the garden! Hurry! Hurry! Hurry! Finally, I finished and it was time to go with my Dad to the Card Shop to buy baseball cards. I got \$4 for my chores, plus \$10 from my savings. As usual, my brother wanted to come but he was sad because he didn't have many baseball cards. So I gave him \$7 of mine to buy some!

y friend Gavin showed me a trick with calk - if you wrote on work backwards on ur hand it would come out the right way someone's shirt. So, I wrote something ally bad and my hand and printed it on olde! He got mad at me and called me a d name, then all lunch hour we had a th! We we were going up off the field, I nored him, but I felt so bad inside when ignored me back! We didn't talk for a role week!

furious, I punched him right in the eye. There was a big red mark and soon his eye swelled up. He didn't tell, but some boys saw him crying and they told the teacher. My face turned red hot and that's when I felt all wrong. Why did I do it? I felt like blaming someone else, but who? We were the only ones around. After we said sorry, everything was o.k., but it's still on my conscience and whenever I think of the incident that made me behave in such a mean spirited, nasty way I feel like hiding

under the nearest stone.

hadn't done anything - yet! I got tired, but I

knew if I stopped running he would beat

me up! But I did stop and that's when it

happened. I went off my head! I was so

FRONT STREET AS WE SEE IT

Tourists

What is wrong, oh what is wrong? Where have all the tourists gone? When I was young it seemed to me That Front Street was a crowded sea, Of tourists thin, of tourists fat, Wearing every kind of hat.

We onions got fed up with this So tourists soon gave us a miss, Because the prices were so high For tacky T-shirts and flashy ties. And worst of all we forgot to say "Hello" and "Have a nice day."

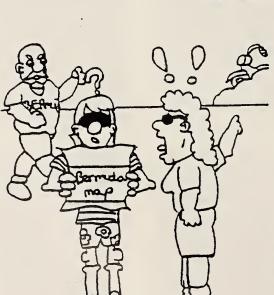

What is wrong, oh what is wrong, Where have all the tourists gone?

John Singleton

Front Street

The traffic waits patiently for the light to change from red, to yellow and eventually to green . . . Off go the cars and bikes racing to their destinations, hoping they won't have to stop for the irritating shade of red glaring down at them from the top of a stoplight. When all the lights are red pedestrians of all shapes and sizes scurry across the road at the all clear signal of a little man walking. He beeps as if to hurry them along. When the beeping stops drivers wait patiently for an elderly lady laden with shopping bags to make her way across.

Damian Cooper.

Front Street.

Front Street
Running feet,
Honking cars
Busy Bars,
Shops galore
Open doors,
Babies crying
Tourists buying,
People meet,
Front Street.

Front Street
Things to eat,
Restaurants cooking
People looking
Bacon frying,
Seagulls flying
Ice cream dripping
Tourists sipping,
Smells so sweet
Front Street.

On a sunny day at 8:00 on Front Street people are rushing to get to work. At every red light they honk their horns as loud as they can hoping the traffic will move faster. They speed down the beaten road and stop at the building where they work, and quietly try to sneak into their offices without being seen by the boss.

Meanwhile a tired and thirsty horse plods along the road while his master tries to make him quicken the pace. The bright sun shines radiant golden beams of light that bring a smile to a passing tourist's face. A mother scolds her son for trying to cross the road without holding her hand. A lady waits impatiently to cross the road but has no luck. A few shopkeepers come out and stand in the narrow doorway of their buildings to catch a few of the sun's rays.

Suddenly the sky darkens into a dull dreary gray. Then rain-drops start falling and the smile on people's faces fades away.

Stuart Kriendler

Giles Cotter.

Tourists line the street, peering into window shops, then step inside the shade, of the gaily colored awnings, to escape the glaring sun. College kids on holiday, in light tank tops and jams, laugh and joke about while buying souvenirs, sipping sodas and eating chips. Then the high official in the bank walks by, strutting like a peacock. in Bermuda shorts, and a tie, hoping that soon, the end of the day will come.

Jesse Horton

It was a bright, sunny day on Front Street. There was a hum of excitement to be heard over the loud engines of cars. Sun beamed down upon the hard ground of the street. As I watched, I saw tourists admiring the various scenes, as they ran in and out of the multi-colored shops. Men would constantly mop their protruding, perspiring foreheads because of the burning heat.

Fortunately there came up a slight wind which felt very refreshing to the anxious shoppers and carried on the air many various and interesting aromas. Sea gulls floated aimlessly about in the slight winter sea breeze leaving Front Street to sink into a silent sleep.

Matthew Hammond

Front Street As I see It.

Horns beeping,
Brakes screeching,
People bumping into others,
Babies crying to their mothers
Lawyers looking proud
In the gigantic crowd
Walk along at a steady pace
Down Front Street, that crazy place.

Alexander Cabrall

Hamilton By Day

here is a steady flow of traffic, yet not nany pedestrians. A group of tourists valk past, ready to explore the City of lamilton. The street is dotted with taxis, eady to be hired. A police car drifts by, in its regular patrol. A bus full of assengers stops in front of us and lets a ew of the passengers off. Businessmen ravel to and fro, carrying briefcases and ccasionally stopping to chat with a amiliar face. Delivery vans hastily pass y, eager to unload the goods that they re carrying. A traffic warden wanders y. Hamilton is a busy place during the lay.

Nekeisha Hayward

4 Busy Day

ront Street can be very busy,
All the rushing leaves you dizzy
Buses, taxis, bikes and cars,
Jse enough fuel to go to Mars!
Pedestrians walking round and round,
Are there bargains to be found?
Thops of every color and size,
All trying to sell their merchandise.
Finally, when the stores all close,
Front Street gets a well deserved doze.

Gavin Llewellyn.

As cars rush by in an array of colors, they are dwarfed by the pink and blue buses that drop off their patrons at their desired stops. Tourists window shop, stopping once in a while to buy a souvenir of their stay in Bermuda. They wander in their red, blue, white, and green Bermuda shorts and shirts carrying cameras that are sometimes clicked, preserving a moment of their vacation in Bermuda. Bikes clutter the parking lot and are sometimes the subject of a remark from a car driver whose space has been taken! I see a street sweeper, who, although he might not realize it, helps tourism by keeping the roads clean.

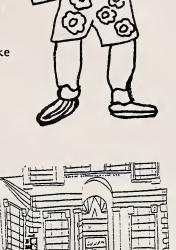

Stephen Troake

Front Street with Cruise Ships

Approaching Hamilton by boat, Along the dock, giant cruise ships float. Among Front Street's bustling throng They hear from the ships a calypso song.

The Union Jack waves boldly on high, Red, white and blue decorating the sky. Passers by stop and stare At the beautiful ships that they see there.

When the sun at last goes down The stately cruise ships light up the town.

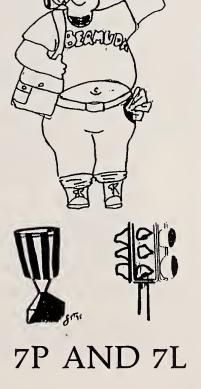

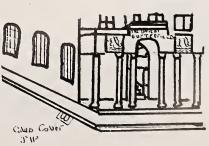

Christina Underwood.

Front Street by a Cruise Ship

My horn blows as the tugboat 'Powerful' docks me up in Hamilton Harbor. A few minutes later the door opens and hundreds of passengers start flooding out of me. They hustle off into the City of Hamilton to look around. From my decks you can see many of the streets but the one that interests me most was Front Street. Tourists walk briskly on the pavement passing hundreds of shops. Sometimes they stop and admire the displays in the window. Cars, bikes, trucks and taxis pass noisily through the streets responding to traffic signals from a thin, boney policeman in the bird cage at Kyle's Corner. Clippety-clop, clippety-clop goes a horse pulling a small buggy as it passes the ferry terminal. Wherever I go on my voyages I like Bermuda the best because I like watching all the hustle and bustle of Front Street.

Benedict Greening

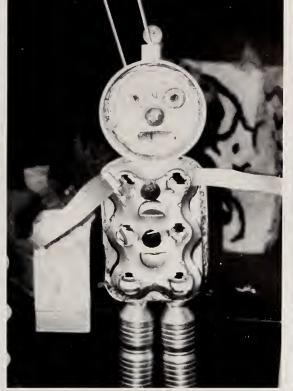

ENVIRONMENT DAY

A Natural Success!

On Thursday, 7th May we had our second Environmental Awareness Day and it was a huge success. In the morning the four house groups went down to Bernard Park to do a big trash pick-up. We managed to fill lots of bags and various children found unusual items. The Watlington group found an old T.V. and V.C.R. player; the Butterfield group found some old bikes, a wallet and a Rolex watch; the Darrell and Saltus groups found some road signs. While Darrell and Butterfield were out collecting

trash Watlington and Saltus did their projects then they swapped around. At recess we had our can crushing competitions. There was bluebird box making, painting, cookie making, art paper making, nature walks, and more activities.

When all of the points for the various competitions were added together Watlington were declared winners of the Environmental shield.

It was an excellent day and everyone is looking forward to next year.

Jordan Hollis

Sports Report 1992

This has been a most successful year for the Junior School on the sports front! There have been both team and individual successes in a variety of sports proving that Saltus is well and truly on the sporting map.

National Competitions:

The National Swimming Championships was the first major event of the year and we had our best year ever in the team relays competition. The boys achieved first place in every event - something that it is impossible to better! It goes without saying that we retained the trophy. In the individual events there were some excellent performances and for the first time in our history there were girls representing the Junior School, Melissa Durrant, Tiffany Rego and Rachael Beasley. We competed in 21 events and achieved 11 first, 4 seconds, 2 third place finishes. Both Nicholas Van deWeg and Matthew Hammond won three gold medals each and were our top swimmers congratulations to all the boys and girls who represented the swim team.

In the six-a-side soccer competition our A-Squad of Ryan Gaglio (Capt), Stephen Troake, Freddie Virtue, Craig Panchaud, Simon Franklin, Richard King, Colin Mello, and Damian Cooper performed admirably in the finals at Shelly Bay. They defeated St. David's, Southampton Glebe, Somerset Primary, and Purvis before losing to Elliott School. As a result we were runners-up in the competition. In the nine-a-side league we didn't fare quite so well winning only one of our four league matches. However, the boys never gave up and lost narrowly on two

SPORTS

occasions — a good season's football!

The cross-country teams performed superbly on the tough St George's course. In the Under 10 race Tyler Butterfield finished second and is still eligible for the same age category next year. In the Over 10 category we had three runners in the top 10 places: Kris Hedges 9th, Stephen Troake 5th and Spencer Butterfield 2nd. Spencer completed an impressive afternoon for the Butterfield family — will we see them both as champions next year?

The Over 10 runners mentioned were ably supported by Ryan Gaglic and Craig Panchaud and finished as winners of the team competition. The Under 10's were 8th and the girls team 18th. Well done all cross-

country runners!

The school cricket squad member worked hard on their skills and defeated West Pembroke on the last ball of the match. However the tables were turned in the matches against Prospect Primary and Elliot School when we lost on the last bal of each match. Against Victor Scott School a poor batting performance gave the bowlers little to play with and we suffered a heavy defeat. The National Coach, Doug Ferguson, visited us on two occasions and gave the players some excellent tipe and advice. Let us hope that they put them into practice next season. Nic Kyme captained the side, Ryan Gaglio scored a lot of runs, and ou main wicket takers were Trevor Corday, Stephen Troake, Justin Barritt and Nic Kyme.

Several of our athletes made it to the National Championships and performed creditably. Our only medal winner was Keith Caines will got a silver in the Under 10 High

Jump — well done! Other

ompetitors who made it to the 'big ime' were Kris Hedges, Tyler Butterfield, Jesse Horton, Spencer Butterfield and Adrian McLean. Vext year we are hoping that some of our talented girls will make it hrough.

Softball

We went into this year's National Championships knowing that we would have a hard job to defend as champions. On the day however the quad all played superbly with our ielding in particular being outstanding. We qualified with elative ease for the final and then ook on Francis Patton School in a 5 nnings match which saw us emerge is 8-3 winners; a great performance.

The squad consisted of: Ryan Gaglic, Reed Gaglio, Justin Barritt, Damian Cooper, Nick Kyme, Stephen Troake, Jason Farrington, Nicholas Van deWeg, Freddie Virtue, Qian Dickinson, Simon Franklin, Brian Irvine, and Ben Beasley.

Our only competitor in the girls symnastics championships was Alison Atherden. Alison had a great competition and finished 1st in the rault, 4th in the floor exercise and 5th overall — well done Alison!

10 Pin Bowling:

We entered 3 teams in this year's event and surprised even ourselves by coming 1st, 2nd and 8th. Simon Franklin was the top bowler on the day.

Inter-House Competitions

The table below shows the respective fortunes of the four houses. Butterfield continue to struggle but are particularly strong in the 4's and 5's so their lean years are almost over.

TRYING OUR HARDEST...
SPORTS DAY '92

The Music Department 1991-1992

It has been a busy year in the music department. The Christmas term was dominated by the school pantomime in which the chorus had much fun singing Mr. Le Page's clever arrangements of old favorites such as "Do Wah Diddy" and "Walk of Life" as well as popular Christmas "Lollipops" including "Jingle Bell Rock". In addition, Christmas preparations included performances in assembly by most classes and the orchestra and 5H singing for "Hope Homes" in Hamilton.

At the beginning of January, we benefited from the opening of the new music school, Woodlands. With its cedar beams and highly polished floors, it is a beautiful building and is already humming with activity. Many rehearsals take place each week, including string, brass, woodwind and recorder groups, as well as theory and aural training and individual lessons. A school concert including ensemble and solo performances was much enjoyed at the beginning of the Summer Term.

Sincere thanks to all who contribute to the running of the department, especially Miss Wyatt, Mr. Furness, Mr Duncan and Mr Coakley for their continued support.

Miss M. Longbourne

"Mozart 200"

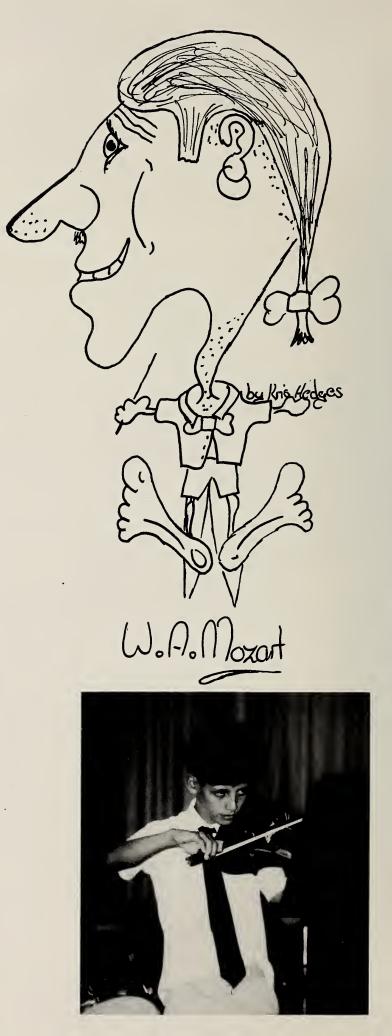

This term we learned about Mozart because it is "Mozart 200" year this year (1991). We are remembering him this year because Mozart died 200 years ago. He was one of the most famous composers who ever lived and his music will be played at concerts all over the world. Mozart wrote his first piece of music when he was nearly five and he played the clavier and the violin. I like Mozart's music because it makes me feel happy.

Benedict Dier 4S

Moods in Music

Music can make you happy
Music can make you sad
Music can make you joyful
Music can make you mad
Music can be rock, classical, rap or jazz
The blues or even country.
Music can be from the Beatles
Rolling Stones or the Beach Boys!

ADMINISTRATION

Colin Williams has been teaching for 34 years and joined Saltus in 1966. He leaves us after 26 years and we wish him all the very best in his retirement.

Rick Wood taught Spanish at Saltus for four years and during that time was involved in soccer, table tennis, and cricket. We wish him and his wife Eleanor all the very best on their return to Dorset.

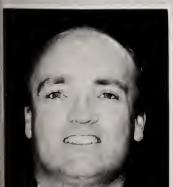

Rufina Humphris came to Saltus in January 1989 and was responsible for the Business Studies program. She returns to her home in Banbury, England and our good wishes go with her.

Dave Millington joined the staff in 1989, having taught in Malawi, Portugal and at Giggleswick in North Yorkshire. Throughout his three years at Saltus he has taught English with great professional diligence and flair. His interests in the subject are wide-ranging but his love for drama was best shown in his excellent production of Alan Ayckbourn's <u>Bedroom Farce</u> in 1991.

John Buckler - Computer whiz, sail board champion and body builder! Who will ever forget the night of the cockroach and that immortal line "chuck it in the fan"

Welcome back Marilyn Gregorson M.A.(Hons), Cert.Ed. Spanish

This certainly has been a memorable year for Saltus Grammar School. It marked the beginning of our transition to full co-education, and the girls who have joined us have settled in remarkably well. I am sure that they will only enhance the high standards set by the school.

I am happy to have been a part of this year's P.G.Y. We were very fortunate to have such a lively and spirited group and I'm sure I speak for everyone when I say this was a most enjoyable year. Everybody worked hard, especially in our production of the annual fashion show, entitled "Wild Thing". I would like to thank Mrs. Legere who did a brilliant job in directing us through this very successful venture.

To the graduating class of 1992, I wish you all the best in all of your pursuits, and congratulations on an extremely successful year.

The end of another school year has inevitably arrived and I find myself being torn in two; I don't know whether to rejoice or to be saddened. Many would say "Be happy! School is over" and I agree - at last, the "end" has come. However, the newly-found friendships, the warmth and companionship which I have encountered here at Saltus make it difficult for me to leave without feeling some sadness. I have truly never met a better group of people with whom to work and share my successes and failures - it has truly been a great year!

great year!

It has been a pleasure being at Saltus especially during the period in which co-education was introduced. I firmly believe that the girls will do Saltus proud in the years to come just as the boys have in the past.

On behalf of PGY 1992, I'd like to write I have falls.

On behalf of PGY 1992, I'd like to extend a heartfelt thanks to the staff for your patience and tolerance throughout the year and to Mr. Durrant for believing in us and keeping us in line. To my fellow classmates and friends, Good Luck! I will miss you all! May all your hopes and dreams come true!

Design and Technology

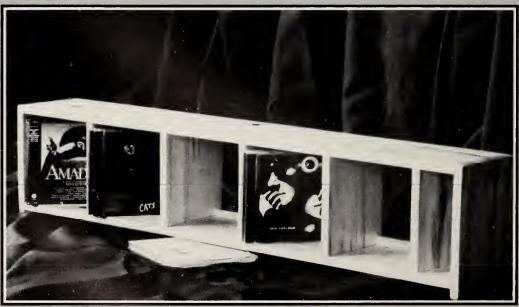

These coursework projects were designed and realized by students following the Cambridge I.G.C.E., Design & Technology syllabus. This year's theme was "Communication", and the topics covered by the groups ranged from the more obvious ways of communicating, through the use of the telephone, fibre-optics, computers, transportation ... to television, music, and in one study, communication in the form of "body language" - fashion and jewelry!

This year, the theme was followed by students at all levels, and those who approached the various

Chris Garland Telephone Wall Unit

osen topics with interest and enthusiasm, experienced a use of pride and accomplishment in realizing their signs.

signs.
Students choosing to follow the Design & Technology labus in the future will have the benefit of working in enew facilities which I recently planned and designed 'Woodlands'. The workshops will have not only chines and storage for wood, plastics and metal, but o a separate dust-free design room, complete with nputer facilities - the place where, graphically, it all gins!

In September the school welcomed three new members of the Music Department. Miss Lisa Wyatt (Woodwind), Miss Mary Longbourne (Junior) and Miss Linde Ayling (Prep.) In less than a year all have made their presence felt with their expertise and cheerful enthusiasm and I am personally very grateful to them all.

The Band gave a good account of itself in the March Concert. The standard of solo playing was high, too, with one of the highlights being the Reggae number performed by 2 former students - Liam Mckittrick and Ia Maule.

Carols for All attracted a capacity audience in St. John's. Much of this was subsequently shown on local T.V over the Christmas Holiday. It is encouraging to see our more senior musicians playing with the Philharmonic and other professional groups. The training gained here is invaluable.

Congratulations to Christopher Darrell on his acceptance at Boston University and to John Paul Dyer and Rachel Van De Weg on their Distinctions in Grade 8. A high number of senior musicians are leaving Saltus this year; they depart with my good wishes and thanks for their support during their career here.

On July 2nd the Saltus Brass Ensemble took off from Bermuda for their first visit to the U.K. For many it was their first journey east of Bermuda and following a 50 mile coach drive from Gatwick Airport everyone was pleased to experience the lush Kentish countryside and discover the beautiful medieval city of Canterbury.

We were hosted very amicably by the Kent Music School with whose pupils we performed around Canterbury. The city was founded by the Romans and during its two thousand year history became celebrated for being the centre of Christianity in Britain and a place of pilgrimage (made famous by Geoffrey Chaucer) following the murder of Thomas Becket, the Archbishop during the thirteenth century. The present day pilgrims, such as our group from Saltus enjoy a shopping centre and attractions rivaling London.

Nearby, the typically British seaside was enjoyed in Margate. Having overcome the surprise of seeing the colour of both sea and sand, a "white knuckle" theme

park called "Dreamland" thrilled everyone.

The musical highlight of our visit was a performance in Westminster Abbey. We played music written for great royal and state occasions in the Abbey such as a Queen's funeral in the seventeenth century and a royal wedding from our time. At the end of our performance we were given our own special guided tour of the Abbey seeing tombs of the Kings and Queens and even of some composers whose music we had just played. A very enjoyable boat trip on the nearby Thames enabled us to take in most of the famous London sights entertainingly described by a real Cockney.

The venture was a great success and plans are now being made for a return trip to Europe in 1993.

GEOGRAPHERS HIT THE STREETS

ARRIVED IN

Class 2R went out on a fieldtrip into the city of Hamilton,
to do a survey of pedestrians
and shops services. To make the
job easier the class was split up
into twos. Each pair took a different street. The aim of this
project was to discover the busiest locations in Hamilton. In a
way it was fun seeing so many
people walking by. I would have
never imagined the number of
persons who walked past me.
Our hypothesis was to find out
if there was a link between pedestrian density and the types
of shops and other services. My
partner and I had one of the busiest streets, Church Street
Mostly all banks and business
people walked by because there
were so many offices and banks
on that side of the street. I
would definitely classify Church
Street as a business street. We
took several surveys at different
times, lunchtime was clearly the
busiest

Maxim Alkon - 2R

On a sunny day in early March, 2R geographers were released onto the unsuspecting streets of Hamilton, led by their redoubtable geography teacher Mrs. Wrigley. The aim of this exercise (as well as finding their way back to school) was to investigate the location of certain types of shops in the city centre and to test the hypothesis that there is a link between the type of shop and the number of pedestrians. Using the 1:2500 Ordnance Survey map of Hamilton and their recently acquired mapping skills, the students produced detailed land use maps of each street. At fifteen minute intervals each pair of students also carried out a simple pedestrian count which produced valuable pedestrian flow data (don't you agree, Daniel?). In the follow-up lessons back in school, 2R produced simple land use maps and bar charts which clearly showed the distinct zones of Hamilton (as well as 2R's tremendous coloring skills!) and the busiest pedestrian points in Hamilton.

SECONDARY SCHOOLS QUIZ CONTEST 1992

January 1992 - A date in history for our five new quiz team members consisting of Najib Chentouf, Craig Brown, Marc Roth, Kevin Dallas, Andrew Frith and our faithful reserve Hywel Brown. In the shadow of last year's victory, our team was left with high expectations in this year's competition. After hundreds of lunchtime practices, we still needed to 'brush up' in the few minutes before our first appearance at M.S.A. The competition went very well for our team and we placed as the first runner up, taking a relieved Mrs. Wrigley and her team on to the finals. Much last minute cramming took place and the finals were soon upon us. The teams were all shown to a 'revision lounge' as they called it, and before we knew what was happening, the

st questions of the competition were asked. Many glasses of water later, the competition was nearing an end, and ltus was in for a third place tie breaker with Sandy's Secondary. Najib came to Saltus's rescue, as he correctly jotted wan the answer, giving Saltus third place and 500 dollars for the school to spend. After the competition, we all sighed the relief while Mrs. Wrigley searched for the 500 dollar cheque.

BLUEBIRDS

"There's a house sits in our garden with no window and no door.

There's no bedroom and no bathroom and no carpet on the floor.

Although it's very tiny and high up off the ground Whenever I should visit a family can be found.

They move in when it's quiet and really are no trouble. The next time that I look in that family is double.

I never get to know them as they are never there for long. These families just move on when their babies have grown strong.

The house is barely empty and before a while I see Another family moving in taking no notice of me.

But it really makes me happy to see them come and go. Without that house in my garden I really wouldn't know

What happens to those bluebirds with nowhere warm and dry. No place to raise their babies then surely they would die.

So do your part to help them and pass the word around To build for them a bluebird box in your garden off the ground."

First Place Winner Katherine S. Dunleavy 10-13 years Age Group

U-15 Junior XI

Unbeaten in the league, league runners up, winners of the interschool tournament and winners of the 1st year stickwork competition a good start for the Junior Hockey team. With eight of the side being first-years the team were naturally nervous about their first league game against B.H.S. After a tentative start the team began to play well and had more than their fair share of possession but just as with their other league matches against Northlands and Warwick Academy the score ended 0-0 which underlines the determination and ability to defend and their inability to score goals. With so many first years the team found it daunting to play against older and larger opponents but their good skills made up for the strength that they lacked.

The first success of the season came in the 1st Year Stickwork Competition where each girl is tested and awarded points in eight different skills. At the end of seven events Saltus were tied with Northlands. In the final event, the team dribbling relay, Saltus emerged the comfortable winners and took the overall title in the six team event.

In the end of season tournament the team excelled dominating all their matches to the extent that Natasha Sirjusingh only had two saves to make and did not touch the ball in two of the games. The first two games against Northlands and B.H.S. followed a predictable pattern emerging as 0-0 draws. However once Caroline Black had secured a 1-0 victory against Warwick Academy "B" with a well struck penalty corner the whole team's confidence soared. They had to win their last game against an unbeaten Warwick Academy "A" and did so in convincing style with a goal from the hardworking Ana Anton to emerge winners ahead of Warwick Academy and Northlands.

The strengths of this side this year have been its teamwork and dedication; each individual has worked hard and contributed a great deal. As many of this squad will be available for at least two more

years they have a bright future.

The following represented the junior teams:- Samantha Adams (Capt.), Mandy Puszcar, Tracey Osborne, Suzanne Rego, Kimberly Oatley, Julie Parker, Carolyn Hill, Emily Black, Ana Anton, Caroline Black, Katherine Dunleavy, Melanie Eddy, Tiffany Sousa and Natasha Sirjusingh.

Hockey 1992

For the first time Saltus competed in the girls' leagues, tournaments, and 1st year girls' stickwork competition. In addition to the annual interschool mixed tournament, inter-house competitions were also played at senior and junior levels.

Senior XI

With so many other competitions this term the girls found it difficult to practise regularly and as a result they never really fulfilled some of the early promise shown. Against Whitney they played some of their best hockey with good crosses from Denika Smith and Angela Hayward being put into the net by Alex Tytheridge (2) and Lisa Haynes. Additional goals by Monika Rohlmann and Tracey Osborne completed the scoring.

The side struggled to find their form against Warwick Academy until a last second goal by Alex Tytheridge salvaged a draw. Undoubtedly their best game was against the strong B.H.S. side. In this game the midfield of Denika, Lisa and Rhiannon Addams worked tirelessly and created several good scoring opportunities. Jenny Rance in goal made some important saves but in the end B.H.S. just secured a 0-1 victory. Sandys proved to be difficult opponents and despite several close attempts on their goal Saltus were unable to score leaving the result a disappointing 0-0 draw.

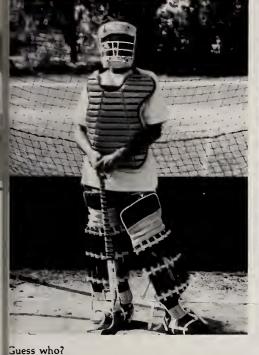

The following represented the Senior XI:

Denika Smith (Capt.), Angela Hayward, Jennifer Rance, Monika Rholmann, Nicole Hypolite, Rhiannon Addams, Clare Fox, Meredith Andrews, Lisa Haynes, Alex Tytheridge, Nadiyah Robertson, Tracey Osborne, Suzanne Rego, Mandy Puszcar, Samantha Adams, and Natasha Sirjusingh.

The end of season tournament saw the team play its best hockey. After pool matches against Warwick Academy and Northlands, Saltus beat Whitney 1-0 in the semi-final with a first minute goal from Denika Smith. The final against B.H.S. was a hard fought affair with Natasha Sirjusingh making two excellent saves enabling the game to finish 0-0. In the penalty shoot out B.H.S. just emerged the winners.

The inter house competition was a closely contested affair with Darrell eventually taking the trophy in an exciting final.

Right: The junior team & the victorious Darrell side.

Daniel Morgan takes a penalty

Colours: Denika Smith, Angela Hayward, Abby Kermode, Lisa Haynes, Alex Ratteray, Jennifer Rance & Rachael Barritt.

Team members: u.15: Suzanne Reggo (Captain), Tracy Osborne, Amanda DeCouto, Rachel Troake, Samantha Adams, Emily Black, Caroline Black, Ana Anton, Anna Boden, Anna Clarkson, Katherine Dunleavy, Natasha Sirjusingh and Julia Parker.

NETBALL

In our first ever venture into Netball, Saltus entered teams in the u.15 and 15 & over age groups. Though both teams finished at the bottom of their respective divisions, they are to be encouraged for their tireless effort, continued enthusiasm and determination throughout the season. The improving quality of our teams was seen with four seniors playing in the All-Star game. They were Denika Smith, Elizabeth Walker, Lisa Haynes and Alex Ratteray. We look forward to a great season next year.

Team members: 15 & over: Denika Smith (Captain), Jennifer Rance, Elizabeth Waker, Vanessa Hardy, Vanessa Canale, Lisa Haynes, Rachael Barritt, Alex Ratteray, Sara Willis, Lynette Powell, Angela Hayward, Abby Kermode and Tara Watters (Manager)

CROSS COUNTRY

An excellent turnout led to an exciting interhouse cross country this year with Watlington winning the senior and intermediate events and Darrell taking the junior title. Individual winners are listed below but the photographs show the effort and enthusiasm of all the competitors.

WINNERS

INTERMEDIATE BOYS STEPHEN FAHY

JUNIOR GIRLS
SAMANTHA ADAMS
JUNIOR BOYS
MARCO BORTOLI

Soccer

The 1st XI had their most successful season for many a year finishing as runners up in the Schools' league. They lost once in the league to Warwick Secondary (the eventual champion) going down 2-4. Their only other defeat was a 1-2 loss against

Sandys in the cup.

With no real individual "stars" this year the success was built on teamwork. All of the players attended practice regularly and worked hard to get a pattern of play. Matthew Lee showed great promise - along the lines of Liverpool's Bruce Grobelar as he mixed amazing saves with a couple of strange mistakes (as the season went on the mistakes became fewer). Cory Bean marshalled a strong defense with Robert Steinhoff again doing a sound job as central defender. Dennis Fagundo, Rajee Shakir, Shaine Benevides and Jacob Hocking played as full backs at different times and did an excellent job defending and attacking.

The mid-field proved to be the powerhouse of the team as they all got through a tremendous amount of work. With Terence Corday directing things they did all that could be asked for from such a unit. DeVon Binns and Dion Woolridge shared the bulk of the wide play and worked tirelessly, whilst Steven Carruthers or Vincent Williams-Savery worked alongside

Terence Corday.

After moving him around the various units Daniel Morgan proved to be our ideal target man, with either Noel Taylor or Jamel Bean working hard off him (however finishing does not seem to be the strong point with either of these two!).

Chris Darrell, Quito Swan and John Best also all played throughout the season and did an excellent job.

Particular praise should go to captains Terence Corday and Cory Bean for their leadership in games, training and off the field.

J.C.B.

SENIOR, INTERMEDIATE AND JUNIOR SOCCER TEAMS

Intermediate Soccer

The results of intermediate soccer matches this season do not reflect the closeness of many of the games played. We often contained some very good teams for long periods, only to give away silly goals at a crucial stage in the match! Omar Shakir held the side together from the sweeper position and was our leading scorer with five goals. A large number of the squad will remain together for next season when we can expect even better things from them.

M.J.D.

- v Northlands (friendly) won 3 0 (scorers: Shakir, Matcham, Atiba)
- v Warwick Secondary lost 6 - 2 (Fahy, Shakir)
- v Whitney Institute lost 5 2 (Shakir, Matcham)
- v M.S.A. Seniors (friendly) lost 7 3 (Best, Shakir, Matcham)
- v Sandys w/o 2 0
- v Berkeley Institute (Cup semi-final) lost 3 - 1 (Shakir pen.)
- v St. George Secondary drew 0 0

IUNIOR SOCCER

There did not seem to be too much reason for optimism early in the season. The squad showed energy and enthusiasm, but never played as a team in the first few matches. After five successive defeats the season seemed as good as over - perhaps the end couldn't come quickly enough! But all was not lost. Under the leadership of WOLDE PLACE, who dropped back to play as sweeper, and MICHAEL SIMS, confidence improved, a pattern of play emerged, and suddenly there was something to look forward to. As in the previous two seasons, the Cup gave us our moments of glory. We beat Warwick Academy 1-0 to advance to the semi-final, where we held a skillful Berkeley team for most of the game, before finally going down 1-4. In the final league match we met Berkeley again, losing 3-4 in a thrilling fixture. We had come a long way, and there is reason for optimism as the players progress through the school.

Finding solutions to the problems posed at opposite ends of the pitch proved most difficult. We were often scratching around for a goalkeeper, and found it almost impossible to score goals. In between, things often looked good, GAVIN SMITH and RONAN KANE were reliable in defense, STEPHEN DECOUTO showed plenty of skill in midfield, while CHRIS WATSON and PHILIP RUSHE were always active up front. Everyone gave of his best -we can ask no more - and heads were held high when the season's final whistle was blown.

The basketball teams proved to be the surprise of the season. Starting as virtual no-hopers in tournament and league they soon set about proving everyone wrong. The Juniors and Seniors both finished as league champions.

In addition to the league the Seniors also won the Saltus tournament and the Chaffee tournament; they narrowly lost the final of the BSSF tournament. Team captain Daniel Morgan led by example. He finished as a high point scorer but his calm, unruffled leadership kept the team together in different situations, as they played themselves out of trouble.

Their effort was an example to all, training from 5-7 in the evenings and again at weekends. The rebounding of Terence Corday, Jens Birkenheim, Dennis Fagundo, Chris Darrell and Robert Steinhoff gave us command of the backboard at both ends; the passing of Daniel, Quito Swan, Jimmy Legere, Cameron Gunn and Adam Davis provided the platform for the offense.

Injuries to many of the team saw us a little short at the end and it was fitting that all were pleased to see team manager Michael Clarke sent up for the last few games.

Daniel, Jens and Quito were selected for the All Star game and proved to be the backbone of an enjoyable game (just think how good Quito would be if he could see properly!)

The Juniors, with only Andre Bean left from last season, also put in a tremendous amount of training and anyone who only saw their first training session and final games would find it difficult to believe that they were the same players. Team players were: Andre Bean, Charlie Judd, Nick Fagundo, Roydon Grant, Craig Brown, Toks Atiba, Chris Smith, Adam Outerbridge, David Outerbridge, Jason Farrington, Wolde Place, Jonathan Andrew, Matthew Macdonald, James Collieson, David Gibbons and the manager was Danny Farag.

It would be remiss not to mention the excellent coaching staff this season who provided the team organization for their success. The seniors were coached by Old Boy Brett Marshall and the Juniors by Tim "Bullett" Trott. Both of these young men devoted many long hours to the teams and were a splendid example to all

In inter house competition (played at a very high level this year), the Senior trophy was won by Darrell and the Junior by Saltus.

SENIOR BOYS JUNIOR BOYS

SENIOR GIRLS

IUNIOR GIRLS

Junior Girls

The girls commitment to training and hard work helped them gain a very creditable 3rd place in the League. All but one of our Juniors were rookie players, with most of them having brief netball backgrounds. The girls showed great promise and we look forward to more victories next year.

The juniors were less fortunate in the Interschool Double Elimination Tournament. In the first round of play they were beaten by Whitney (who they defeated twice in League play) in a closely contested game. They went on to meet League Runners up, Chaffee High School. They lost that game by a greater margin.

Four of our Juniors were selected to play in the All-Star game. They were Samantha Adams, Rachel Troake, Tracy Osborne and Amanda DeCouto.

Team members: Samantha Adams (Co-Captain), Amanda DeCouto (Co-Captain), Rachel Troake, Tracy Osborne, Suzanne Rego, Caroline Black, Emily Black, Natasha Sirjusingh, Mandy Puszkar, Ana Anton, Katherine Dunleavy, Kimberley Oatley, Carolyn Hill, Tiffany Sousa and Julia Parker.

Senior Girls

All of the senior girls were first time players, and like the juniors most were converted netball players. They showed great potential and improvement throughout the season, helped largely by their commitment to training, coming in to school most Sunday afternoons.

Although they were not victorious in any of their games their attitudes remained positive. Two of our players were selected as League All-Stars. They were Lisa Haynes and Alex Ratteray. Congratulations to all team members. We look forward to a more successful season next year.

Colours and Team members: Elizabeth Walker (Co-Captain), Keira Petty (Co-Captain), Alex Tytheridge, Alex Ratteray, Abby Kermode, Rachael Barritt, Vanessa Hardy, Meredith Andrews and Lisa Haynes.

Juniors (u.15)

The junior girls consistently improved throughout the season. Although defeated by every team in the League, the girls had a remarkable turn around in Tournament play. They had convincing wins against Warwick Academy "B", MSA "B" and Northlands "A" but lost to Warwick Academy "A" (tournament winners) and lost a close one to MSA "A" (runners up). Their success was due to their continued determination, team spirit and team commitment. Congratulations to all team members for their 3rd place finish in the Tournament.

League Results

SALTUS MSA "A" (Home) lost 1 game to 2 (2-15, 15-9, 0-15)

W.A. "A" (Home) lost 1 game to 2 (15-13, 1-15, 3-15) VS

vs N'lands (Home) lost 0 games to 2 (12-15, 4-15) MSA "A" (Away) lost 0 games to 2 (9-15, 8-15)

VŚ N'lands (Away) lost 0 games to 2 (3-15, 0-15)

W.A. "A" (Away) lost 1 game to 2 (9-15, 15-12 & 8-15) VS

Tournament Results (one game to 15 pts.)

SALTUS VS W.A. "A" lost 4-15

νs

N'lands won 15-11 MSA "A" lost 13-15 vs

W.A. "B" won 15-6 VS

MSA "B" won 15-8

Team members: Mandy Puszkar (Captain), Tracy Osborne, Rachel Troake, Amana DeCouto, Suzanne Rego, Samantha Adams, Julia Parker, Emily Black, Caroline Black, Ana Anton, Anna Clarkson & Natasha Sirjusingh.

Senior Volleyball

The senior team performed remarkably well in the League this season. They were in 2nd place until their last match when they dropped to a very creditable 3rd in a closely contested match with Warwick Academy "A" in their very small gym. Saltus lost that match 2 games to 0 with scores of 14-16, 14-16. Because of the large number of interested players, an "A" Team and a "B" Team were entered into the Interschool Tournament. The "A" Team did not play up to the standard they achieved in the League and had to be content with a 3rd place finish. The "B" Team, on the other hand, saved the tournament for their best display, as they finished champions in their division. LISA HAYNES was voted Most Valuable Player in the "B" Division.

League results:

SALTUS Chaffee (Away) won 2 games to 0 (15-3, 15-8)

Whitney (Home) won 2 games to 0 (15-7, 15-6)

MSA (Home) lost 1 game to 2 (15-9, 9-15, 6-15) vs

vs W.A. (Home) won 2 games to 0 (15-9, 15-11)

Whitney (Away) won 2 games to 1 (15-3, 6-15, 15-13)

W.A. (Away) lost 0 games to 2 (14-16, 14-16) VS

3rd in the League

Tournament Results: "A" Team

SALTUS vs W.A. won 15-10

MSA lost 6-15 vs

N'lands lost 14-16 vs

Whitney lost 11-15 VS

Chaffee won 15-12

"B" Team (best 2 out of 3 games) **SALTUS** Whitney won 2 games to 0 (15-10, 15-2)

MSA won 2 games to 0 (15-6, 15-5)

Seniors

With no seniors left from last years "A" team it was a combination of last years "B" team seniors and junior players making up our first team. Cricket and exams robbed us of our best six at certain times but we went into the tournament having worked hard and improved considerably. Finishing in third place we played some good volleyball but let ourselves down at vital times by not concentrating - just a lack of experience. With four of the team available for two more years things look bright for the future.

Captain Craig Roberts led the team well and his controlled spiking gave us many valuable points. Sports all-rounder Cory Bean showed great potential, Adam Smith and DeVon Binns provided good service for the other spikers. Matthew Lee and Steven Carruthers show great promise as spikers - particularly once they stop trying to put a hole in the floor with every spike. Nelson Oliveria and Alex Rollin also

showed great potential as utility players. Our "B" team also worked very hard winning the league games and missing out on tournament play due to a lack of interest from other schools. Jermaine Simons was captain and displayed his own style of volleyball which brought PGY flocking to seel "Herbie" Adderley, Michael Branco, Justin Kendall, Richard Lines, Chris Darrell, Tim Furr made up the rest of this very enthusiastic group.

The Junior "A" team were led by Tommy Steinhoff and they finished in second place in the league. After playing very well in the tournament they lost their last game and finished third. The team comprised Tommy, Omar Shakir, John Best, Jean-Paul Dyer, Adam Outerbridge and David Gibbons.

The "C" provided the upset of the tournament as they finished the reserve team tournament as undefeatable champions overcoming our "B" team 11-7 on the way!

The "C" consisted of Andre Bean, Wolde Place, Jonathan Andrew, Craig Brown, David Outerbridge & Scott Wheeler.

The "B" of Neil Jones, Matthew Macdonald, Nick Fagundo, Toks Atiba, Andrew Smith & Charlie Judd.

WIN FOR SALTUS NEW FORMAT SPORTSDAY A GREAT SUCCESS!

The first senior sportsday to include girls was a great success and despite some early worries about the weather it went off without a hitch. Saltus house retained the overall trophy that they won last year and individual champions are listed below.

SWIMMING

Interschool Swim Meet - Tuesday October 15th, 1991 Saltus boys swam to their 15th consecutive victory by winning gold in all but 3 events. They placed 1st in all 3 age groups (u.13, u.15 and o.15) and gained maximum points in the u.13 and o.15 age groups. The boys' team also won the overall trophy outclassing their nearest competitors by 100 points.

In the u.13 age group, William Massey and Trevor Nelson each earned 2 individual and 2 relay gold medals. Stephen Fahy and Andrew Smith also won golds in 2 individual events and 2 relays in the u.15 age group, while Craig Roberts and Jamel Bean achieved the same in the 15+ age group. Tim Furr earned golds in one individual event and 2 relays.

Saltus girls performed consistently placing 3rd in all age groups and 3rd overall. Special mention should be given to second year Samantha Adams who earned 3rd place finishes in the u.15 25m Butterfly and 100m Individual Medley after never having swum either event before. She replaced an injured Rachel Troake. First year Caroline Black earned a gold medal in the u.13 25m Butterfly.

Congratulations to all team members for their outstanding performances.

Team members: Under 13 Girls: Caroline Black, Emily Black, Kimberley Oatley, Julia Parker, Natasha Sirjusingh, Melanie Eddy, Ana Anton, Anna Boden, Anna Clarkson, Caroline Hill, Tiffany Sousa.

Under 13 Boys: William Massey, James Spearing, Trevor Nelson, Nicholas Pewter, Alex Smith, Robert Spurling, Graham Henderson, Matthew Mello, Marco Bortoli, Andrew Holmes, Ronan Kane. Under 15 Girls: Rachel Troake, Mandy Puszkar, Amanda DeCouto, Suzanne Rego, Tracy Osborne, Samantha Adams.

Under 15 Boys: Stephen Fahy, Trevor Hedges, Andrew Smith, Jean Paul Dyer, Brian Dodwell, Grant Smith, Matthew Hocking, Nick Pearce, Treadwell Tucker.

Over 15 Girls: Angela Hayward (Team Captain), Lisa Haynes, Keira Petty, Jennifer Rance, Abby Kermode, Rachel Barritt, Rhiannon Addams, Christina Davis, Alex Tytheridge, Vanessa Canale. Over 15 Boys: Craig Roberts (Team Captain), Jamel Bean, Tim Furr, Jason Cook, Matthew Lee, Peter Lapsley, Steven Carruthers, Nicholas Strong, Chris Garland.

Saltus entered five teams in the inter school softball tournament and the senior girls team is shown here. Although everyone enjoyed themselves we were unable to bring home any silverware.

Inter-School Cross Country-Girls

The Saltus Junior girls continued to make their presence known at the Interschool level. The u.13 girls did very well to come 2nd overall out of 8 schools who entered. Fast improving Ana Anton led the Saltus girls home with a 6th place. Lavonne Lee, Julia Parker and Caroline Black finished 10th, 11th & 12th respectively with Emily Black completing the course in 29th position. The 3 remaining non-scoring team members were Anna Boden (36th), Tiffany Sousa (46th) and Melanie Greaves (54th). There were 57 girls competing in this age group. The u.15 girls did not finish as well as the u.13 but each team member performed courageously. Samantha Adams finished 22nd out of 42 starters. Rachel Troake and Mandy Puszkar finished 31st & 32nd respectively. Rounding out the team were Nadiyah Robertson (39th) and Amanda DeCouto (41st). Saltus finished 5th out of 8 teams.

The o.15 girls competed with a lot of enthusiasm and were not overly concerned about their finishing position. Rebecca Wallington placed highest for Saltus finishing in 19th position. An injured Lisa Haynes placed a creditable 22nd place. Completing the Saltus team that placed 5th overall were Meredith Andrews (28th), Vanessa Hardy (30th), Cathy Williams (33rd), Monika Rohlman (34th), Jenny Rance (35th) and Sara Willis (36th). 37 girls started the

Five boys from the senior school played in the Bermuda schools chess tournament and their combined efforts gave Saltus their third championship in four years. The top boards were played by Jonathan Andrew, Michael Starling and Shimon Alkon who together lost only two of their twelve games. The rest of the team was made up by Waheed Brown and Jonathan Starling.

Cross Country BOYS Inter School

With only a few notable distance runners our teams did remarkably well, due to everyone's willingness to try and keep up with the leaders and so came in close together in the early group of runners.

The under 13's finished third overall. Marco Bortoli was the first Saltus runner home in 4th place. Steven DeCouto 17th, Roderick Ferguson 21st, Damian Simmons 22nd, Michael Sims 27th, with Jonathan Goodman, Sean Durkin and Wolde Place also finishing well.

is. An e in and its lost ice to Se

The under 15's went one place better to finish in second place overall. Stephen Fahy was our top placed runner in 6th position. Then came Damon Hendrickson 7th, Grant Smith 12th, Mathew Hocking 17th, Trevor Hedges 18th with James Collieson, Ryan Matchum and Brian Dodwell finishing well placed.

The seniors also grabbed second place overall finishing in a fairly tight group. Steven Carruthers was 10th, Jens Birkenheim 12th, Julian Wheddon 13th, DeVon Binns 15th, James Adderley 22nd, with Vincent Williams-Savery and Cory Bean close behind.

U 14 Xl v Whitney

lost by 29 runs

Whitney-119 for 4 in 15 overs Saltus-90 for 7 in 15 overs

The first game of the Junior season was lost in the field where Saltus gave up too many runs to stand a realistic chance of winning. Only Wolde

Place (3 overs for 11 runs) and Ricky Carruthers (3 overs for 17) slowed Whitney's scoring, Faced with a task of scoring 8 an over to win Wolde Place hit 33, Stephen Fahy 21 and David Outerbridge 19 but they were not supported by any other batsmen.

U14 XI v Northlands

Won by 4 wickets Northlands-86 for 0 in 16 overs Saltus-87 for 6 in 15.1 overs

Although Saltus failed to get a wicket this win came through a good team performance on the field. The bowlers, Stephen Fahy, Daryl Fubler, Noel Pearman and Ricky Carruthers bowled to their field and only conceded four boundaries. They were ably backed up by all the fielders. A brisk start with strong hitting by Fahy, Matthew Harper, David Outerbridge and Treadwell Tucker put Saltus in a winning position and Ricky Carruthers and Robert Spurling put on the final 37 runs to win with

balls to spare. J14 XI v Berkeley lost by 5 wickets

altus-89 for 7 in 16 overs

3erkeley-90 for 5 in 15 overs

Another close game based on Saltus tight bowling and fielding. ent into bat Saltus struggled to get runs from the Berkeley opening powlers. Wolde Place batted sensibly for 22 and Ricky Carruthers (28) with some late hitting pushed the score to 89 which was always going to be difficult to defend. Daryl Fubler took a wicket with the irst ball and after that he, Noel Pearman, Ricky Carruthers and Wolde Place bowled steadily only giving up 7 boundaries. Berkeley wentually winning off the last ball of the penultimate over.

J14 XI v Warwick Academy won by 5 wickets

Narwick Academy-84 for 8 in 20 overs

Saltus-87 for 5 in 11.2 overs This first round of the schools cup again showed the value of tight bowling and good fielding. With only 7 boundaries conceded from the bowling of Stephen Fahy (1 for 28), Daryl Fubler (2 for 18) Robert Spurling (1 for 12), who bowled 5 overs each and Noel Pearman (3 or 16 from 3 overs) and Wolde Place (0 for 4 from 2 overs). Excellent catching supported the bowlers to restrict Warwick to this low score. Another brisk start by Stephen Fahy and Brian Dodwell quickly put Faltus on top. Ricky Carruthers (20), David Outerbridge 20 not out and Wolde Place 11 not out completed a quick victory.

U14 XI v St. Georges

won by 22 runs Saltus 96 for 2 in 15 overs

St. Georges 74 for 9 in 15 overs

In this friendly warm up for the next round of the schools cup Saltus won another low scoring affair still showing the value of good fielding by taking 7 good catches, two by David Outerbridge, and allowing only 6 boundaries. Sent into bat Brian Dodwell again scored early runs, Wolde Place batted elegantly to score 50 not out and he was backed up by a sound 22 not out from Daryl Fubler. Good was backed up by a sound 22 not on 10th Dailyr tuber. Good defensive bowling by Stephen Fahy (3 for 12), Ricky Carruthes (2 for 12), Wolde Place (1 for 14), Andre Bean (2 for 6) and Treadwell Tucker (1 for 16) sealed another good team performance.

U14 v St. Georges Semi Final Schools Cup

lost by 3 runs

St Georges-73 for 3 in 15 overs

Saltus-70 for 6 in 15 overs

Saltus did everything right in the game except scoring the winning runs. An excellent bowling performance by Carruthers, Place, Fahy, Bean and Fubler restricted St. Georges to this low total. Although Saltus lost 3 early wickets Craig Brown and Wolde Place took the score to 56 after 10 overs leaving 17 runs to get from 5 overs. Unbelievably Saltus failed!!

U14 XI v Warwick Academy

lost by 54 runs W.A.-113 for 6 in 20 overs

In their final friendly of the season Saltus were well beaten. Only Treadwell Tucker, 2 for 10 and Daryl Fubler, 2 for 21 bowled well and Andre Bean was top scorer with 20.

First XI v Stephen West's XI lost by 51 runs

Stephen West's XI-150 for 5 in 15 8 ball overs

Saltus-99 for 4 in 1 8 ball overs

Saltus bowled well for the first 8 overs and restricted the opposition to 55 for 1 at that stage. Loose bowling after that allowed a further 95 from the remaining 7 overs. Terence Corday was the most economical bowler with 2 for 30 from his 4 overs. Saltus' batsmen found runs difficult to get in fading light with Corday hitting 21 and Macio Talbot 32 not out, and John Best 25 not out saw out the overs.

First XI v Warwick Academy
won by 7 wickets

Warwick-67 all out in 16 overs

Saltus-71 for 2 in 13 overs

An excellent fielding and bowling performance stifled Warwicks battling. Omar Shakir (3 for 7), Cory Bean (3 for 8), Daniel Morgan (2 for 7) and DeVon Vinns (2 for 12) claimed the wickets. Saltus knocked off the runs easily through Binns 18 and the not out batsmen Morgan 25 and Macio Talbot 12.

First XI v Seymour Farm XI

lost by 4 wickets

Saltus-111 for 7 in 16 8 ball overs Seymour Farm-112 for 6 in 9.4 overs

Sent into bat only Daniel Morgan (40) showed any real ability to score runs although Cory Bean and Timmy Furr managed to score 19 off the last over. For once the bowling really let the school down with far too many short and leg side deliveries which were easily punished.

First XI v Sandy Sec. First Round Schools Cup

won by 7 wickets Sandys-118 for 8 from 20 overs

Saltus-124 for 3 from 15.5 overs

Good teamwork in the field set up this win. The opening pair of John Best (1 for 29) and Omar Shakir (2 for 7) restricted Sandys to 36 for 3 off the first 8 overs. Terence Corday (3 for 22) and Daniel Morgan (1 for 18) continued the tight bowling. Saltus had little trouble in reaching the total as Daniel Morgan hit a fine 59 not out supported by Corday 25, DeVon Binns 15 and Omar Shakir 11.

First XI v Northlands won by 9 wickets

Northlands-91 for 8 from 20 overs

Saltus-92 for 1 from 8.4 overs

After an excellent opening over from Skipper Terence Corday had removed Northlands opening bat there was little resistance. Corday (1 for 5), Omar Shakir (2 for 14) Daniel Morgan (2 for 10) and Rajee Shakir (2 for 8) snapped up the wickets. Saltus quickly scored the necessary runs with Daniel Morgan 39 not out and DeVon Binns 35 not

Saltus-57 for 1 in 7.4 overs

A good bowling performance, especially by Omar Shakir, reduced Northlands batting to mediocre levels. In reply Saltus quickly knocked off the runs with Andre Bean getting 23 in quick time. Matthew Lee and Timmy Furr knocked off the remainder.

First XI v Old Boys

lost by 136 runs

Old Boys-241 for 3 in 30 overs Saltus-105 in 22.2 overs

A very disappointing performance in the field allowed the Old Boys to score far too many runs for this to be a serious contest. Short bowling and poor fielding all aided the Old Boys to score this large total. In reply Saltus tried to go for the runs but in the end fell well short with the top scores being 31 by Daniel Morgan and 22 by Omar Shakir.

Senior School Golf

Boys from the 2nd and 4th years have attended coaching after school this year with Mr. Morgan.

Lessons have covered chipping, pitching, driving, and all the iron shots as well as ensuring correct grips, swings and

balance.

At the end of the Spring term a mini-tournament was held at the Southampton Princess, and my thanks go to Bruce Sims for his hospitality there.

Thanks are also due to Ocean View Golf Club who have allowed the boys to practice chipping and putting up there.

If any girls out there are interested in learning to play this great game, you would be most welcome to attend the sessions.

1 Vnite Stuff

What a teacher thinks a pupil is saying

I stared up from my work to see the God

(sitting high) of the class

I felt how small I was compared to him.

A living book of knowledge

Him, looking at us from his throne in the sky.

What a student really thinks about a teacher

Looking down at us like an eagle choosing its prey,

So that he can swoop down and kill us With skill and knowledge.

And he will sit there, on his royal perch,

Choosing his next victim.

Danny Farag - 2R

Poem

Rays from the sun gleamed in through the window

Intricate patterns of dust danced in the light A cool crisp breeze swayed a protruding hair.

Matthew Strong - 2R

Silence hovered in the room amongst contented students

No work was set

No responsibilities.

Seasons of Destruction Spring;

An idea is born, like a spring lamb, Quiet, unnoticed

A creation of a scientific mind That mind probably meant well.

Summer;

Preparation for the autumn and winter

Like squirrels storing nuts This summer has been the hottest

but it will get 100,000 C hotter.

Autumn:

The air is filled with the colour orange

Everything blows away like leaves. Like the Burning Bush at Horeb, Trees go up in flames, But this is not a sign from God, Instead the devil calling.

Winter;

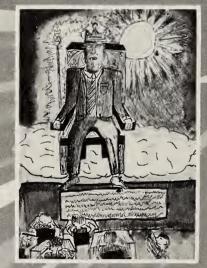

It is cold, the temperature - 238 C The sun has not been seen for several months,

Conditions so harsh that there are no crops,

but radioactive manna from the heavens.

There will be no more seasons after this.

Michael Branco

Life
What is life meant to be?
The answer isn't clear to me.
What shall I wear, what shall I say?
What am I going to do today?
Do I or don't I?
Yes or no?

When do I stay, when do I go? The answers to life, Will I ever know?

Tracy Osborne - 3D

The Lecture

As I listened to the worthless preaching of the teacher, My mind floated, I disconnected the tube of knowledge That was overflowing my tank, And let all of that useless nonsense Slowly leak out. For what was the point of learning in this class, What was the point of being in that cell? The answer I could not discover The teacher went on, As the blinding blob in the sky shut my eyes. It penetrated through the window, And shone its arms into my face. My body was becoming restless Against the merciless pain of the wooden bench. I looked around at other prisoners of this warden, And we all felt tired and worn out like an old glove. Our bodies were irritated and sluggish, And it took jets of energy to take our tattered scrolls And then write down for the rest of this eternity.

Time

Time
when we are young it is endless,
It seems to go on forever,
And we do not think about time.

As adults, it slowly rolls by, Stealing our lives as it goes, And we begin to regret, Long lost opportunities, That will never knock again.

When we are old it is a jail cell,
And we are trapped between life and

We know that time is destroying us, However all we can do is wait There are no more chances to live, And all we can do is wait.

Matthew Davies - 4R

POWEM (sic)

It is hot.
The feeble breeze that blows
Through the window does nothing
To liven the others,
Who go through the motions of work
As through a dream.

The pens move over the paper Like clouds on a calm summer's day He is talking, the man. He is standing there trying to explain The complexities of the outside world, But we do not hear, And we do not care.

Occasionally we look up and knot our brows,

And scratch our heads in a mime of thought.

Then we bend over and, idly moving our pens

And staring into space,
We sit and wait for the final bell.

Taran Card - 2R

Daniel Frith - 2R

Words Hurt

Be careful what you say, Each and every day. You may only think you're joking, But really you're provoking Someone else's pain and sorrow.

You may think it's only harmless, It may appear it doesn't hurt. But deep down inside them
They are weeping.

In seconds the sadness turns to hate It is really only fate,
That you in turn,
will feel the same burn
That you inflicted upon them.

Vanessa Hardy - 4C

Waiting

The door is at the end of the hall, And with trembling hands, I open it. After taking a seat, I look at the clock, And wait.

The door opens,
And makes me jump,
An elderly woman is beckoned
I glance around the room,
And wait.

The mahogany table nearby holds magazines,
And I reach for one
Aimlessly I turn the pages
I tap my foot,
And wait.

The room is silent
Broken only by the
Incessant tickling of the clock.
I bite my nails,
And wait.

The old man by the door sneezes And his book falls off his lap It clatters to the floor I crack my knuckles, And wait.

The woman in the corner says "No", And her child starts to cry At which she takes him from the room I stir in my seat, And wait.

The door cracks open, And the old woman leaves, He calls for me My stomach tightens And I enter.

A Tytheridge - 4C

If I Were in Charge of the World

If I were in charge of the world,
There'd be brighter night lights,
Healthier hamsters, and
Basketball hoops would be thirty-six inches
lower.

If I were in charge of the world, You wouldn't have lonely, You wouldn't have clean, You wouldn't have bedtimes, Or "Don't punch your brother!" You wouldn't even have brothers.

If I were in charge of the world,
A chocolate sundae with whipped cream and
nuts
would be a vegetable.
R Movies would be G

And a person who sometimes forgot to flush, And sometimes forgot to brush, Would still be allowed to be, In charge of the world.

Craig Brown - 2W

Sunset

Dark shadows fall, From the trees so tall That line the evening sky.

The sun's dying rays
Filter through the maze
Of leaves that shimmer aloft.

Above in the night The stars shine so bright In the newly moonlit sky.

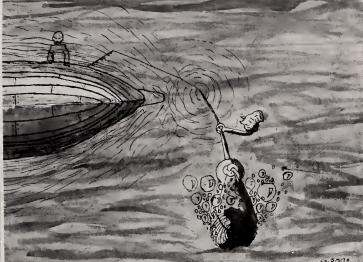

Oil slicks, Hydroxide, Sulphur and Carbon Dioxide. Smoke, Radioactivity, Why is the world so dirty? Chemicals, Detergents, Help is very urgent. Rainforests, Ozone. Man is only skin and bone Ultra-violet, Acid rain, Only earth feels the pain CFC's Nuclear fission, Rapid animal extinction. Wars, Overpopulation, We are all one nation.

The sweat was slowly dripping down my face and falling gently off my chin. My hands were rough and tired. The racquet which I was holding, was tightly clasped in my right hand. I was twirling it, ever so gently anti-clockwise. It was gleaming in the sunlight. I glanced up at my opponent and stared right into the pupils of his eyes. I slowly crouched down, keeping my back perfectly perpendicular to the ground. I tensed my muscles in anticipation of what was to come. I placed my left foot forward and swayed, back and forth. My opponent tossed the ball-up nto the air, and with an almighty blast, he aced me.

James Collieson - 3D

In the Name of God?

Galileo and Copernicus: visionaries of their times, Said the world went around the sun and as a result, Were forced to repent or sacrifice their lives. To oppose the church was heresy For they were God's representatives on earth.

The ten commandments which govern humanity, Ruled only the simple folk. The church was above such menial laws, Its will, was that of God.

Spirituality was sold for profit Money more important than the soul.
Indulgences, guaranteed tickets to heaven,
Were exchanged for superficial tolls.
Was the money used to feed the hungry or shelter the
insufferable poor,
Or rather to build the Vatican and paint the Sistine's great

or rather to build the Valican and paint the Sistine's great walls?

Evangelists pretending to preach God's word, Beg for donations people cannot afford Before signing off they pause and say, "Remember that it's not buying the Lord, But proving your devotion to his cause." A few pitiful sobs from Tammy Fay, Serve to convince the Thomases to pay.

Sitting on the pew I glance at the elaborate stained glass. The congregation obediently entranced in the sermon, A jiggling collection box passes up and down the rows. Is this the true meaning of religion, Or an egotistical use of the name of God?

Rhys Baptiste - 4R

The line sailed through the air Like a pebble, the weight Dropped into the water Making a little splash.

Sinking downwards, the bait Vanished into the depths, As if it were a plane That got lost in the clouds.

Sight was of no use now It all depended on The tension of the line. Feeling a tug, I pulled.

The battle had begun. It was a tug-of-war Between me and the fish.

The strain was tremendous With great exertion, I Jerked the line upwards.

The opponent appeared.

Dazzling blues and greens
Filled the water around

The opponent was now A fish out of water. With a hope of freedom, The fish bit through the line.

The seemingly endless Contest of endurance Had now finally ceased. Triumph was for the fish.

There will be other times.

Roderick Ferguson - 1H

The Game

It's a losing game, which no one can win To play the game, is a sin.

It's not for the faint of heart
If you're weak don't start
If you're not quick on your feet,
and smart,
Someone's going to hack your heart
apart.

As for smart I wasn't even sane I was too full of raw passion, too wild and untame.

And too soon I found it's an ugly game, full of pain, with a beautiful name.

As fine as a rose a pleasure to the eyes and the nose, a beauty to the soul, but it takes a heavy toll.

I never stood a chance to get a little romance I couldn't get as much as a single touch I couldn't get one night to hold her tight to watch her eyes gleam and tell her how I feel I couldn't get a chance, to make my dream real.

How'd he get what was mine without even tryin'
Don't they know that I'm dying.

Now she's on a pedestal so high If I can't reach her I'll die Unless, ... I grow wings! and learn how to fly.

And if I do ... Oh My!

But even a heart of solid gold can bleed Even a heart of cold stone has need I guess I was stupid to try and play cupid.

I couldn't give her money,
or silver,
or gold,
Now, I'm going to be lonely, until I'm
very old.

Michael Walsh - 4R

The House Next Door

A crystal clear crash of shattered glass disrupts the summer air.

"It's just not Fair!"
A curse
Another curse
"You stole from my purse!"
Someone shouts back,
Thundering from the earth,
"Women like you should be drowned at birth!"
A baby cries aloud
The shouting stops,
the hate has been parted
because the baby has started
Humbly I ask,
those I love and those I adore,
"What goes on in the house next door?"

Steven Cardwell - 4R

The Grand Final

The voices in the locker room were loud and obnoxious as both teams changed into their rootball kits and made ready for the final Cup clash. Both teams had fought hard to overcome defeat in the dying seconds of their previous matches. The final promised to be a fantastic battle of strength and endurance. Six apprehensive young football players were eagerly stretching their muscles and loosening up before they took to their positions on the field. The huge capacity crowd at Wembley Stadium, the home of the Englandalite national football team, waited motionless for the opposing sides to file quietly hive onto the pitch. Every spectator's eyes were fixed on the entrance tunnel where traditionally, the captains of both teams lead their players onto the field. Meanwhile, inside the changing rooms, the tension was beginning to mount. on the changing rooms, the tension was beginning to mount. Both teams lined up opposite to each other and, led by their captains, they jogged into the tunnel and out onto the pitch. The crowd's silence was shattered as a young spectator spotted the red and yellow jersey of his team's taln captain. Suddenly, the crowd and screaming fans erupted. The tension was broken. The game was underway.

Colors

Why does it matter what color we are
Because we are all the same inside
In this world some people think that if you
Are black or Jewish or Chinese you are bad
But why does it matter: your race, color, or creed?

In past years people have been killed
For what they looked like or believed in
But God created us equal, a model
After himself. Look at how we treat
Each other. What kind of models are we?

We are Gods Children look at what we do.
We kill each other and torture each other.
But what good does it do? We are all brothers and sisters so why can't we live in peace?
Because we are all the same.

com Durrant - P.G.Y. Co-ordinator

POST-GRADUATE YEAR 1991-92

The 47 students enrolled in the Post-Graduate Class of '92 have maintained the impressive standards set by previous groups in terms of both college admissions and the contribution made to the school and local communities.

Those students seeking admission to colleges and universities have continued to receive favourable responses, many from institutions of their first choice. This is particularly pleasing at a time when, despite the fact that college costs are still rising, despite the demographic dip in the number of traditional collegeaged students, despite the recession with many families out of work, the colleges which are perceived as the most prestigious are as competitive as ever. In some cases, they are even more competitive because their number of applicants has increased. Counsellors at public and private schools throughout the United States are saying that there is now less predictability about who will get into any given school and that there is very little logic in the pattern of acceptances and rejections. Given this state of affairs, therefore, it is indeed gratifying to report that Post-Graduate students have gained acceptance at prestigious schools in the United States, Canada and the

nited Kingdom - Georgetown University, Tufts, Franklin and Marshall, Queens, Western, Dalhousie, McGill, the niversity of Manchester, the London of School of Economics, the University of Southampton, and the University of ssex are just some of those which have made offers to our graduates. We are clearly not immune from those trends hich affect the applications of students in other countries, yet it is satisfying to see that the calibre of our students ontinues to receive due recognition.

Post-Graduate students have also remained significant contributors to the corporate life of the school and have volved themselves enthusiastically in numerous community activities. Whilst space will not permit a detailed list of tainments, mention should be made of the more significant. We were well represented at the annual Teen Conference here Jens Birkenheim and Daniel Morgan were recognized for their accomplishments in academics and sports spectively, while Rachel Van de Weg has been selected to spend the coming year as a Rotary Exchange student in donesia. Gold awards were attained in the Duke of Edinburgh scheme by Andre Raine and Rannie York, with the esentation being made by Prince Edward during his visit to Bermuda. On the sportsfield - despite being dominated the staff yet again in the annual soccer match - Post-Graduate students gave a very good account of themselves. In ct, talking with Mr. Beard, he estimates that the involvement of this year's class was probably more wide-ranging and gnificant than that of any former year. As well as forming the backbone of most teams at the Senior level, students ere selected to play on a variety of All-Star teams and have been members of national squads in several sports. Whilst plauding the achievements of all of those individuals, special mention should be made of Denika Smith's contribution a member of the Telecom Ladies Soccer Team which won not only the League title but also became the first ever inners of the Challenge Cup, Elizabeth Walker's participation in sailing's World Youth Championships and Duncan elkin's dominance of Junior golf - as well as his performance in local major tournaments - which has brought him not ly the attention of university coaches but also the chance to represent his country at the Senior level in the world ampionships.

I have singled out certain individuals, but it is really the development of a corporate spirit which we seek to foster nong Post-Graduate students. Nowhere was this more evident during the year than in the months of hard work which Ilminated in Wild Thing, Fashion '92. The students had a great deal to live up to if they were to maintain the everaproving quality of what has now become a much anticipated annual event. This they certainly did and, as a result, we set the Class of '93 a standard of excellence and professionalism which will be difficult to match. I can't remember occasion - except perhaps during Hurricane Emily - when the roof of the Assembly Hall has come closer to being own off than it did when the audience erupted during the boys' skit - an extravaganza that will long be remembered those who saw it. Much of the credit for the show's success must be attributed to the enthusiasm and creativity of rs. Jeanne Legere, as well as to the commitment and determination of those students who gave so willingly of their ne and energy to stage two evenings of entertainment which were not only profitable in terms of raising funds for raduation but - more importantly - were also a great advertisement for the Programme and a valuable learning

perience for themselves.

In thanking the students for all they have done, I would also like to thank, on their behalf, the staff - administrative, aching, and secretarial - who have done so much to ensure the continued success of the Programme. In particular, I ank Mrs. Christina Wrigley for her immeasurable assistance and Mrs. Rufina Humphris who deputised for Mrs. 'rigley during the Christmas Term.

Right: Congratulations to Rannie York and Andre Raine who received their Gold awards this year from H.R.H. Prince Edward.

Below: The Bronze award group

The boys look on while the girls work out how to put up a tent at Ferry Point Park

Above: Tom looks dreamily at Grant's break-

Above: Suzanne, Mandy, Toks and Kevin ready to set off from Lagoon Park

Left: Tarik in the wilds of Harrington Sound

MAINTENANCE AND CLEANING

THANKS...

Editor & yearbook co-ordinatorDerek Janes

Special thanks go to Mr. John Coakley for almost single handedly producing the junior section of this yearbook. Also to Mrs. Shirley Bacon, Joan Paradine and all the staff in the Prep Department for all their hard work on their section.

In the Senior School I would like to thank Colin Williams for his work on the woodwork and fashion show layouts and in particular, Lilian Williams for her photographic expertise which can be clearly seen on the fashion show pages. Also, Mr. Raistrick, Mr. Evans, Mrs. Wrigley and the science staff. Special mention to Mrs. Boorman for her typing skills, her infinite patience and her good humour.

Elizabeth Walker of Post graduate Year should also be commended for laying out the P.G.Y. pages by herself.
